NOTICE OF SECURITY RESTRICTED ITEMS AND DANGEROUS GOODS REQUIREMENTS

Dangerous Goods are articles or substances which are capable of posing a risk to health, safety, property or the environment and may endanger the safety of an aircraft or persons on board the aircraft. Dangerous Goods are also known as restricted articles, hazardous materials and dangerous cargo. Their carriage on South African Airways aircraft is primarily governed by the Civil Aviation Authority Regulations.

For safety reasons goods identified in the IATA Dangerous Goods Regulations shall not be carried as, within, or as part of customer's baggage accepted as checked or cabin baggage.

Dangerous Goods must not be carried in (or as) customer or crew-checked baggage or carry-on baggage.

The items depicted below are forbidden for transport in carry-on or checked baggage. For information on how to safely transport these items by air, please speak to your South African Airways representative.

NOT CLEARED FOR TAKE-OFF

**EXPLOSIVES/
FIREWORKS**

**COMPRESSED
GAS**

**FLAMMABLE
LIQUIDS**

MATCHES

**FLAMMABLE
GAS**

STRONG MAGNETS

**POISONOUS
SUBSTANCES**

**RADIOACTIVE
MATERIALS**

**CORROSIVE
SUBSTANCES**

**PETROL-OPERATED
EQUIPMENT**

**ELECTRO SHOCK
WEAPONS**

HOVERBOARDS

**OXIDIZING
SUBSTANCES
LIQUIDS**

LIGHTER FUEL

**DISABLING CHEMICALS
OR GASES**

ITEMS FORBIDDEN FOR CARRIAGE ON SOUTH AFRICAN AIRWAYS

For safety reasons, the laws of all countries and that of IATA prohibit the transportation of the following items in your checked-in or carry-on baggage or on person:

- Briefcases with built-in alarm devices such as lithium batteries or pyrotechnic
- Explosives, fireworks, flares
- Pressurized containers containing irritant gases, self-defence sprays, camping gas
- Containers with flammable liquids such as lighter fuel, paint, varnish, cleaning agents
- Items that ignite easily, such as matches
- Substances that emit flammable gases upon contact with water
- Oxidizing substances, such as bleaching powder, peroxides
- Poisonous (toxic) and infectious substances, such as quicksilver, bacteria and virus cultures
- Radioactive materials and items
- Corrosive substances, such as acids, alkalis, wet cell batteries
- Strongly magnetic materials
- Petrol-operated equipment and tools that have contained minimal amounts of petrol (e.g. for test purposes)
- Disabling devices such as mace or pepper spray
- Liquid oxygen devices
- Electro shock weapons such as Tasers

Lighters

- Taking one lighter is permitted if:
- It is for personal use
- It is filled with fully absorbed liquid fuel

Forbidden are:

- All lighters in checked-in baggage
- So-called Zippo lighters
- Lighters filled with unabsorbed fuel
- Lighter fuel
- Fuel refills

E-Cigarettes And Spare Lithium Batteries

The use of electronic, simulated smoking materials including cigarettes, pipes and cigars, is prohibited on all SAA flights. However, they are permitted in your cabin baggage for all SAA / SAA connecting flights. If you boarded with hand baggage and it is discovered that the hand baggage cannot be accommodated in the cabin due to a shortage of stowage space, you will be requested to remove all valuables, medication required for the duration of the flight, e-cigarettes and all spare batteries prior to the baggage being removed from the cabin and placed in the hold.

Ammunition

Special regulations apply to the transportation of ammunition. You can find out about them on:
[>> flysaa.com](http://flysaa.com) >> *SAA Experience* >> *Firearms & ammunition*

SOUTH AFRICAN AIRWAYS

A STAR ALLIANCE MEMBER

NOTE USA FLIGHTS: Federal law forbids the carriage of hazardous materials aboard aircraft in your baggage or on your person. A violation can result in five years' imprisonment and penalties of \$250,000 or more (49 U.S.C. 5124). Hazardous materials include explosives, compressed gases, flammable liquids and solids, oxidizers, poisons, corrosives and radioactive materials. Examples: Paints, lighter fluid, fireworks, tear gases, oxygen bottles, and radio-pharmaceuticals.

Carriage of Dangerous Goods

To ensure your maximum safety, dangerous goods must not be carried on board. To find out which items you may not take with you, either in your checked baggage or in your hand luggage, please refer to the chart below:

MAY I TRAVEL WITH THIS?

Following the 2006 events involving the potential use of Liquid Explosives to commit attacks against International Civil Aviation Operations and the associated security threat identified against Civil Aviation Operations in certain countries a number of security restrictions have been imposed on our passengers travelling to and from various international destinations.

To facilitate your travel, kindly refer to the chart below in identifying specific security restrictions imposed on flights you are booked to travel on.

PROHIBITED ITEMS – ALL SOUTH AFRICAN AIRWAYS FLIGHTS

ALL SAA FLIGHTS OPERATED FROM SOUTH AFRICAN AIRPORTS			
Item	Cabin Baggage	Checked Baggage	Remarks
Ammunition	No	Yes	Handled through firearms counters at limited quantities of not exceeding 5kg's per passenger.
Axes	No	Yes	
Baseball bats	No	Yes	
Blackjacks	No	Yes	
Bows and Arrows	No	Yes	
Box cutters	No	Yes	
Brass Knuckles	No	Yes	
Corkscrews	No	Yes	
Cricket bats	No	Yes	
Crow bars	No	Yes	
Disabling chemicals or gases	No	No	Must be handled as Dangerous Goods
Lighters	Yes	No	Subjected to Dangerous Goods regulations.
Fire extinguishers	No	No	Must be handled as Dangerous Goods
Flare pistols	No	No	Unarmed flare pistols will be allowed.
Golf clubs	No	Yes

RESTRICTION ON LIQUIDS

ALL INTERNATIONAL FLIGHTS DEPARTING FROM SOUTH AFRICA, EXCEPT FLIGHTS TO AUSTRALIA.

All items on the prohibited items list plus:

Only liquids essential for the use of the passenger during his/her trip such as personal hygiene, toiletries etc, may be carried in cabin baggage, provided that:

- Such items are packed in a re-sealable clear plastic bag not exceeding 1 liter in size. (Total diameter not exceeding 80cm)
- The items packed within the sealable bag may not exceed 100ml per item.
- The bag must be sealed.
- The contents must comfortably fit in the bag.
- The bag must be separated from other cabin baggage when proceeding through airport security.
- Items exceeding the above requirements will be confiscated by airport security screening staff without the option of such items being recovered by SAA.

Passengers are advised to pack any liquid items exceeding the above requirements in checked baggage before or at the time of check-in.

SOUTH AFRICAN AIRWAYS

A STAR ALLIANCE MEMBER

RESTRICTION ON LIQUIDS

ALL INTERNATIONAL FLIGHTS DEPARTING FROM SOUTH AFRICA, EXCEPT FLIGHTS TO AUSTRALIA.

Duty Free liquids purchased after the airport security screening areas will be allowed carriage, provided that these items are packed in special security bags provided by the duty free outlets. These bags will be sealed by the duty free outlet and the receipt of purchase will be visibly displayed on the inside of the bag. **Passengers with onward connections** from their international destination are advised NOT to open these duty free bags before passing through airport security at the point of transfer, as this may result in such items being confiscated by the relevant security screening authority of that airport.

Exemptions:

- Baby formula/milk and baby food in small containers if a baby or small child is travelling with the person carrying such items.
- Prescription medicine (liquid and gel)
- Essential other non-prescription medicines not to exceed 100ml per container, to include saline solution and eye care products such as eye drops and contact lens solution.
- Liquids and gels (inclusive of juice) for diabetic passengers who indicate a need for such items to address their medical condition.
- Solid cosmetics and personal hygiene items such as lipstick in a tube, solid deodorant, lip balm and similar solids.

NOTE THAT THERE ARE NO RESTRICTIONS ON THE CARRIAGE OF LIQUIDS IN CHECKED BAGGAGE, OTHER THAN DANGEROUS OR FLAMMABLE LIQUIDS.

Flights to Australia

All restrictions indicated above with the exception that Duty Free liquids will only be permitted if such items are delivered to the boarding gate by the Duty Free outlets. SAA made the necessary arrangements with the Duty Free outlets to assist passengers accordingly. All passengers will be subjected to secondary gate security screening to ensure compliance. Duty Free liquids carried by Transit/International connecting passengers are not permitted and will be confiscated.

Flights from the UK, USA, EU, ASIA and Australia

All of the above with the exception that certain of these countries will allow the carriage of duty free items not packed in a special bag, if such items are delivered directly to the aircraft by the duty free outlet.

Passengers may be subjected to additional screening if they carry liquids through screening points.

RESTRICTION ON LIQUIDS

Passengers transiting to an international destination from South Africa.

All passengers arriving from an international destination, connecting (transit/through checked) to an international destination from South Africa will be restricted to the same liquid restrictions as passengers originating on international flights from South Africa. Restriction on Liquids – Passengers departing from domestic airports through checked to an international departing flight from South Africa.

All through checked passengers, originating their journey from a domestic airport (on a domestic flight) are advised to pack all liquid items exceeding the international liquid restriction in their checked luggage before check-in at the point of origin. All liquids not packed

SOUTH AFRICAN AIRWAYS

A STAR ALLIANCE MEMBER 

in accordance with the above liquid restrictions on international flight departures from South Africa will be confiscated by airport security at the point of access to the international departure area.

RESTRICTION ON POWDERS

Restrictions on Powders on USA Bound Flights From Johannesburg, Accra And Dakar

Effective as from 30 June 2018, passengers are advised that any powder, or powder like substances carried in accessible cabin baggage may not exceed 350ml (approximately the size of a Soda Can). Customer must pack powders or powder like substances exceeding 350ml in checked baggage.

Exemptions will apply to Baby Formula and Baby Powder required during flight, however security staff may inspect these items to ensure the contents matches the product description.

Restrictions on Powders on flights departing from Australia (incl. transit passengers)

- Organic powders (e.g. food, powdered baby formula, coffee, sugar) are not restricted, but must be separated from the rest of the carry-on baggage for X-ray screening.
- Inorganic powders (e.g. salt, sand, talcum powder, make-up) must be in containers of 350ml (volume), 350gm (weight) or less. The total must not exceed 350ml, 350gm per person.

Additional Cabin Baggage Restriction : UK & Europe

- Passenger traveling in Economy Class will only be allowed ONE piece of cabin baggage not exceeding 56cm in length by 45cm in width and 25cm in depth, and one additional personal item.
- Passenger traveling in Premium Class will be allowed TWO pieces of cabin baggage not exceeding 56cm in length by 45cm in width and 25cm in depth each, and one additional personal item.
- Passengers carrying musical instruments shall be allowed to carry such instrument as a second piece of hand baggage.

Additional personal items are:

Purses, baby changing bags, laptops in a thin satchel and slim line brief cases.

Larger laptop bags and standard/bulkier briefcases will NOT be considered a personal item and will count as a normal piece of cabin baggage.

SOUTH AFRICAN AIRWAYS

A STAR ALLIANCE MEMBER

CLEARANCE PROCEDURES

FOR OTHER ITEMS THAT MAY BE CONSTRUED AS DANGEROUS OR HAZARDOUS ITEMS, NOT DEFINED AS PROHIBITED ITEMS.

Certain items not listed as Prohibited items which may be carried on a person or in cabin baggage for medical or other use, such as syringes and hypodermically needles should be declared to the airline check-in agent or checkpoint security staff. The airline will accept the carriage of these items in the cabin of the aircraft only if such items are accompanied by clearly labelled medication such as insulin or other life saving medicines. Unlabeled or unidentified substances accompanied with syringes, or packs of needles not accompanied by the above may be denied for carriage on a person or within cabin baggage.

Passengers carrying these items, not requiring access to such items during flight are encouraged to rather pack these within their checked baggage.

When such items are considered as unjustified or non essential, security staff may confiscate such items if a passenger fails to provide sufficient reason and/or medical evidence to carry such items.

WE URGE PASSENGERS TO KEEP THEIR CABIN BAGGAGE AND OTHER ACCESSIBLE PROPERTY TO BE CARRIED THROUGH AIRPORT SECURITY POINTS TO A MINIMUM TO ASSIST IN SPEEDING UP THE SCREENING PROCESS.

Passengers travelling with firearms (inclusive of hunting weapons) and ammunition are requested to note the relevant restrictions and processes outlined in the Carriage of Firearm Policy of South African Airways.

SECURITY RESTRICTIONS ON UK SPECIFIC SERVICES

The items listed under the May I Travel with this? part of this document above shall apply to all passengers, however in the interest of clarity, the following items are specific to flights to and from the United Kingdom.

SECURITY RESTRICTED ITEMS

Passengers are not permitted to carry the following articles into security restricted areas and in cabin baggage or on board the aircraft

GUNS, FIREARMS AND OTHER DEVICES THAT DISCHARGE PROJECTILES

Devices capable, or appearing capable, of being used to cause serious injury by discharging a projectile, including:

- Firearms of all types, such as pistols, revolvers, rifles, shotguns
- Toy guns, replicas and imitation firearms capable of being mistaken for real weapons
- Component parts of firearms, excluding telescopic sights
- Compressed air and CO2 guns, such as pistols, pellet guns, rifles and ball bearing guns
- Signal flare pistols and starter pistols
- Bows, cross bows and arrows
- Harpoon guns and spear guns, Slingshots and catapults

BLUNT INSTRUMENTS

Objects capable of being used to cause serious injury when used to hit, including:

- Baseball and softball bats
- Clubs and batons, such as rackets, billy clubs, blackjacks and night sticks
- Martial arts equipment

STUNNING DEVICES

Devices designed specifically to stun or immobilise, including:

- Devices for shocking, such as stun guns, tasers and stun batons
- Animal stunners and animal killers
- Disabling and incapacitating chemicals, gases and sprays, such as mace, pepper sprays
- Capsicum sprays, tear gas, acid sprays and animal repellent sprays

SOUTH AFRICAN AIRWAYS

A STAR ALLIANCE MEMBER

SECURITY RESTRICTED ITEMS

Passengers are not permitted to carry the following articles into security restricted areas and in cabin baggage or on board the aircraft

OBJECTS WITH A SHARP POINT OR SHARP EDGE OBJECTS WITH A SHARP POINT OR SHARP EDGE CAPABLE

of being used to cause serious injury, including:

- Items designed for chopping, such as axes, hatchets and cleavers
- Ice axes and ice picks
- Razor blades
- Box cutters
- Knives with blades of more than 6 cm
- Scissors with blades of more than 6 cm as measured from the fulcrum
- Martial arts equipment with a sharp point or sharp edge
- Swords and sabres

EXPLOSIVES AND INCENDIARY SUBSTANCES AND DEVICES (PROHIBITED IN BOTH CABIN AND HOLD BAGGAGE)

Explosives and incendiary substances and devices capable, or appearing capable, of being used to cause serious injury or to pose a threat to the safety of aircraft, including:

- Ammunition,
- Blasting caps
- Detonators and fuses
- Replica or imitation explosive devices
- Mines, grenades and other explosive military stores
- Fireworks and other pyrotechnics
- Smoke-generating canisters and smoke-generating cartridges
- Dynamite, gunpowder and plastic explosives.

WORKMEN'S TOOLS

Tools capable of being used either to cause serious injury or to threaten the safety of aircraft, including:

- Crowbars
- Drills and drill bits, including cordless portable power drills
- Tools with a blade or a shaft of more than 6 cm capable of use as a weapon such as screwdrivers and chisels
- Saws, including cordless portable power saws
- Blowtorches
- Bolt guns and nail guns
