

TRAVEL RESTRICTION WORLDWIDE – 20 March 2020

South Africa

Following the first confirmed case of Coronavirus in South Africa on 05 March 2020. The South African National Department of Health added the following requirements with immediate effect.

- Additional Health Screening points before immigration
- Passengers from the listed countries in the past 14 days will undergo Thermal checks on board before disembarking.
The flights concerned are:
- **CHINA, FRANCE, ITALY, JAPAN, IRAN, SOUTH KOREA, SINGAPORE, VIETNAM, TAIWAN and HONG KONG**
- Cabin crew will provide surgical masks for passengers with respiratory symptoms i.e coughing, sneezing.

Update 16 March 2020

South African Department of Health added more screening measures at international arrivals terminal. In order to conduct effective contact tracing, all international aircrafts are requested to provide Port Health with the passenger manifest and the General Declaration of Health. These documents must be sent to ortia.operations@health.gov.za as from the **16th March 2020** and there are no exceptions to this request to close all gaps. Should airlines have challenges with implementing the submission of electronic copy by the mentioned date, they are requested to provide a hard copy to the Port Health Officials on arrival.

Update 18 March 2020

1. Passengers with a normal passport, who have transited or are arriving from China (People's Rep.), France, Germany, Iran, Italy, Korea (Rep.), Spain, Switzerland, USA or United Kingdom are not allowed to enter South Africa.

South Africa has cancelled any visas issued to persons from the following countries with immediate effect: Iran and Peoples Republic of China.

Visa exemption of passport holders from medium risk countries has been withdrawn. Nationals of these countries will not be admitted to South Africa without a VISA. These countries are: Hong Kong, Portugal and Singapore.

This does not apply to nationals and residents of South Africa.

2. Nationals and residents of South Africa returning from COVID-19 high-risk countries will be subjected to testing and self-isolation or quarantine.
3. A completed health questionnaire must be presented to Port Health upon arrival.

CLEARING OF INTERNATIONAL FLIGHTS ON ARRIVAL

- Port Health Official must board the flight before disembarkation, and other operations can begin
- The crew must provide the Port Health Official with a completed and signed General Declaration of Health.
- Crew must communicate any health related concerns to the Port Health Official.

Update 19 March:

Nationals from the countries whose visa exemptions have been withdrawn who have not been to any of these countries since the announcement on 15 March, will be allowed to transit through an international airport (JNB or CPT) to return to their countries. Inbound transit arriving from these countries is not permitted.

Nigeria

The Federal Government of Nigeria is restricting entry into Nigeria for travellers from the 13 high risk countries: China, France, Germany, Iran, Italy, Japan, Netherlands, Norway, South Korea, Spain, Switzerland, United Kingdom and United States of America.

This restriction is applicable to passengers and crew.

Uganda

Travel for all passengers coming into Uganda from any of the Category one (1) countries (listed in attachment 1 to this Circular) with reported Corona virus (COVID-19) cases is hereby suspended.

Ugandan citizens and any other nationals with valid residence permits will be allowed to enter Uganda provided they proceed on institutional quarantine as designated by Government of Uganda, for fourteen (14) days; all costs associated with institutional quarantine shall be met by the passenger. The airlines shall ensure that the passenger has prior booking at any of the government designated quarantine areas.

All international arriving passengers shall be subjected to physical and temperature screening upon arrival at Entebbe International Airport.

All airlines shall ensure that passengers fill and submit Travel Surveillance Forms (TSF) on board the aircraft before disembarking. The duly filled forms shall be handed over to the Ministry of Health personnel on arrival;

All airlines are also required to provide advance passenger manifests to the relevant port health office at the airport;

Upon identifying a suspected case while the aircraft is in flight, inform the port health office at the airport through Air Traffic Control about;

- a. Aircraft identification
- b. Departure aerodrome
- c. Estimated time of arrival
- d. Number of suspected cases on board

Argentina

Argentina will have closed the borders as from 00:00LT/16MAR until March 31st. Only Argentina Nationals and Residents are allowed to disembark in the country.

Travel to New Zealand

You cannot enter New Zealand if you have been in mainland China or Iran in the last 14 days.

Travellers to New Zealand from the rest of the world, except those coming from most Pacific Islands, must isolate themselves for 14 days.

Ministry of Health self-isolation guidance

You will be required to register with Health line on arrival to New Zealand if you choose to travel.

If you do not want to isolate yourself for 14 days in New Zealand, you should reconsider your travel plans.

Update 19 March 2020:

Borders closed for all visitors. An additional category of transit passengers has been approved through a bilateral agreement between Australia and New Zealand. To help each country get their citizens home, Australia and NZ have agreed that their nationals may transit through each country in order to get home. So Australian citizens (who are not resident in NZ) are permitted to transit through NZ if they are going to Australia as their final destination. Similarly, NZ citizens (who are not resident in Australia) are permitted to transit through Australia if they are going to New Zealand as their final destination.

Mauritian nationals, residents, their spouse and children Coming from European Union, United Kingdom and Ireland, and Switzerland or with a history of travel to and from European Union, United Kingdom and Ireland, and Switzerland within the Last 14 days within the last 14 days will be allowed entry in The republic of Mauritius and will be placed in quarantine.

3. Crew members from European Union, United Kingdom and Ireland, And Switzerland will be allowed entry in the republic of Mauritius, however, they shall be confined to their hotel rooms.

Update 18 March 2020

The Government of Mauritius just announced the closure of the air and sea borders to ALL passengers (residents and foreigners) as from 06h00 UTC on 19th Mar 20 until 06h00 UTC on 02 Apr 20.

No passengers will be allowed to enter Mauritius over that said period. Passengers currently in Mauritius will be allowed to depart.

Reunion

Any foreign national having resided in Reunion Island or with a history of travel to and from Reunion Island within the last 14 Days will not be allowed entry or transit in the republic of Mauritius (including Rodrigues island).

Mauritian nationals, residents, their spouse and children Coming from Reunion Island or with a history of travel to Reunion Island within the last 14 days will be allowed entry in The republic of Mauritius (including Rodrigues island) and will be placed in quarantine).

Angola

In response to the ongoing outbreak of Novel Coronavirus in Wuhan Hubei Province – The Peoples Republic of China.

All foreign passenger's non-residents in Angola, coming from all countries affected with Covid-19 will not be allowed entry into Angola. Only Angolans and foreigners with permanent residence that will be allowed but will be in quarantine for 14 days.

Public health authorities require that all travellers complete a health declaration form before arrival. Your information will be used in accordance with local privacy laws to help fight the spread of the disease. Every traveller must complete a form. A parent or guardian may complete the form for a child.

Kenya

To prevent the spread of COVID-19, the Government of Kenya implemented the following measures for travellers:

Travel for all passengers coming into Kenya from any country with reported coronavirus cases is suspended.

All passengers arriving will be subjected to physical and temperature screening at Kenya ports of entry, and must self-quarantine for days.

Any persons exhibiting symptoms such as cough or fever should present themselves to nearest health facility for testing.

Only Kenyan citizens and all foreigners with valid residence permits will be allowed to come in provided they proceed on self-quarantine to a government designated quarantine facility. This will take effect within the next 48 hours to cater for any pax who maybe enroute.

This directive will remain in effect for the next 30 days as varied by the national emergency response committee.

Upon arrival all airlines should fill and submit to Port Health General Declaration Form on health part of ACFT and FLT Manifest.

If suspected case of virus are identified, inform Port Health through ATC with the following information (Aircraft ID, DEP AD, ETA, NR OF SUSPECTED CASES ON BOARD, NO OF PAX ON-BOARD, SIGNS AND SYMPTOMS)

Australia

Australian Government require that all arriving passengers complete an incoming passenger card.

If traveller advise they have travelled or transited through mainland China on or since 01.02.2020 and are not Australian citizens or permanent resident (or their immediate family, legal guardian or spouse) the airline is required to contact Border Operations Centre at +61 1300 368 126.

In most circumstances, if traveller does not meet the above travel conditions, they will be denied uplift (the mechanism of which will be VISA cancellation).

Arrangements will be made to re-instate visas as appropriate following the lifting of these measures.

All travellers **must isolate for a period of 14 days after they have entered Australia**. If you need to transit domestically, you may complete this transit and then begin your precautionary 14-day selfisolation period. If you have a layover, you must remain in the airport or self-isolate in your accommodation for the transit period. Refer to the 'Isolation guidance' information sheet for further information.

If you have returned from a country or region that is at higher risk for COVID-19, you may also be required to undergo enhanced health screening on arrival in Australia.

Update 19 March:

The country's borders will be closed to all visitors, except for citizens and permanent residents and their close family members.

USA

In an attempt to curb the spread of the Coronavirus (aka COVID-19 or SARS-CoV-2 Virus), the United States of America issued a directive, which restricts passengers who originated, transited or transferred from or through the following areas: a) China (***excluding Hong Kong and Macau***)

Namibia – Windhoek

The Minister of Health announced this morning that there are two confirmed cases of COVID-19 on Namibian soil. The health of Namibians is the first priority. Appropriate precautionary measures must be taken. To protect Namibians from being affected by this virus:

1. The Independence Celebrations that were scheduled for Independence Stadium are called off. However, the swearing-in-ceremony will take place at State House.
2. The financial outlay for Independence Celebrations will be diverted to the fight against the Coronavirus.
3. The Namibian Government is suspending inbound and outbound travel to and from Qatar, Ethiopia and Germany with immediate effect for a period of 30 days.
4. All big gatherings are suspended for a period of 30 days.
5. Lockdown of Windhoek Gymnasium with immediate effect for a period of two weeks.
6. Suspension of all travels by Namibian government officials, including State-Owned Enterprises.

To curtail the spread of the COVID-19, Namibian Cabinet implemented the following additional measures:

Points of Entry

Suspension of the issuance of visa on arrival at the Hosea Kutako International Airport and implementation travel ban of foreign nationals (by air and sea) from affected countries, namely Schengen States, China, Iran, Korea, United Kingdom, United States of America and Japan. The travel ban to be reviewed regularly.

All leisure, business and social travel like tourists is suspended, and Namibians who are residents in other countries considering to visit Namibia to postpone such visits;

All scheduled passenger flights, including private chartered flights to and from countries where there is active local transmission be temporarily suspended for 30 days with immediate effect. This suspension is exclusive of cargo and emergency flights to and from Namibia.

Zambia

Due to the Corona outbreak the Ministry of Health in Zambia has intensified its case surveillance system at all its point of entry. Further, a number of measures have been put in place, one of which is comprehensive data collection using passenger screening forms to collect data from all passengers on-board. The Ministry of Health, has therefore, directed that all airlines should administer passenger surveillance forms on-board so as to reduce on the amount of time passengers will spend at points of entry on arrival.

Due to the ongoing outbreak of Corona virus, all airmen are requested to report suspected coronavirus cases by radio as early as possible before arrival to ATC.

Brazil

Brazil public health authorities a health declaration for all arriving passengers.

Hong Kong

Public health authorities require that all travellers complete a health declaration form before arrival. This information will be used in accordance with local privacy laws to help fight the spread of the disease. Every traveller must complete a form. A parent or guardian may complete the form for a child.

The DR Congo **airspace will be closed for all passenger flights effective Friday, March 20, 2020 until further notice.**

NETHERLANDS TRAVEL BAN

The Dutch government has taken the decision to tighten the entry conditions for person wishing to travel to the Netherlands from third countries from Thursday 19 March 2020 at 18.00 hours CEST. This is a restriction on all non-essential travel to Europe (all EU member states, all Schengen members and the UK) in order to prevent the spread of the COVID-19 virus.

In view of the above, all persons from third countries will be refused entry based on Article 6 of the Schengen Code paragraph 1(e).

The travel restriction does not apply to the following categories of persons:

- EU citizens (including UK nationals) and members of their families;
- Nationals of Norway, Iceland, Switzerland, Liechtenstein and their family members;
- Third-country nationals holding a residence card or a residence permit in accordance with Directive 2003/109/EC;
- Third-country nationals who derive their right of residence from other European Directives or from the national law of a Member State;
- Holders of a long-stay visa, including persons with a temporary residence permit (MVV);
- Other persons with an essential function or need, including:
 - Personnel working in Health Care;
 - Border workers;
 - Persons employed in the transportation of goods, where necessary;
 - Diplomats;
 - Military personnel;
 - Personnel of international and humanitarian organizations;
 - Persons who have compelling reason to visit their families;
- Transit passengers who wish to travel via the Netherlands to another third country;
- Persons in need of international protection; the border procedure applies in full;
- Persons who are admitted for humanitarian reasons.

The temporary restriction applies in principle for a period of 30 days as of 19 March 2020 and may be extended if necessary.
